

## HUMAN ANIMAL LIFE FOUNDATION

*Established with a vision to make a substantial impact on the integration of animals into people's lives where the quality of life for both will be improved and sustained.*

HUMAN	ANIMAL	LIFE
<p><i>Living here on earth, we as humans cannot sustain without animals, we must coexist. The impact humans have on animals can have a tragic or a magical effect and most certainly that is in the hands of humans.</i></p>	<p><i>On the other half, the impact animals have on humans can also have a tragic or a magical effect where that too is in the hands of humans. God has given hands to humans, to help or hurt, to lift or drop, to build or ruin, all by a simple choice.</i></p>	<p><i>We can make a substantial impact on the integration of animals into people's lives where the quality of life for both will be improved and sustained. All of us can become a part of the half that leads, interacts and is part of the solution, until we become the whole.</i></p>

<b>NOAH'S LITTLE ARK</b> <i>Meet the Animals</i>	<b>MIRACLE RANCH</b> <i>Group Home for Children</i>	<b>SAVING EQUINE</b> <i>Sanctuary &amp; Forever Home</i>
<p><i>Animal meet and greets, pony rides and nature walks among the roaming herd of horses, ponies, mini-ponies, mini-donks, along with many various animals around the ranch including cows, goats, hogs, pot-belly pigs, lamas, alpacas, zebus, birds, cats and dogs all support the work known as Human-Animal Interaction (HAI). People enjoy fun and adventure in a beautiful nature setting at the Nature Centers for Human-Animal Interaction ranch filled with acres of animals, oak groves, open fields and wonderful ponds with lessons learning about animals as well as the environment.</i></p>	<p><i>A residential program in a therapeutic environment for at-risk children which operates in conjunction with Human-Animal Interaction (HAI). The programs are designed to emotionally and psychologically pair children to animals who require as much unconditional love, understanding and acceptance as they do, creating a bond which is beneficial to both. This up close and personal connection between human and animal, teaches responsibility, empathy, caring and nurturing which represents a healthy model for living as well as learning the consequences of cause and effect where what you give is what you get.</i></p>	<p><i>A therapeutic care program for rescued or retired horses with a focus on individual needs of each animal to become healed and whole. As a result of their mental and physical condition, along with natural athleticism, horses have special needs that, when identified and attended to, make successful rescue or retirement achievable. Standards of care within this program promote our three guiding principles for human-animal therapeutic interactions to heal the body, condition the mind, nurture the spirit with support of a qualified veterinarian.</i></p>
